

preci-dip

Delemont, February 2010

REACH Regulations: EC/1907/2006

According to the REACH definition, PRECI-DIP SA, manufacturer of electrical contacts and connectors, acts only as a downstream user and is neither a manufacturer, nor a reseller or an exporter of substances or preparations towards the European Union.

- **All substances and preparations used for the product manufacturing have been reviewed with our suppliers and PRECI-DIP declares that no substances of very high concern (SVHC) from the "Candidate List of Substances of Very High Concern for authorization" dated 13.01.2010 are contained in our products.**

We are assessing with our suppliers all purchased substances and preparations to identify the scope of work for compliance and registration.

All substances and preparations are used in accordance with the specifications, directives of use and safety data sheets issued by the supplier.

Patrick Schindelholz,
REACH Team Manager
